### **HKUGA Biennial Plan and Activities (2024–2026)**

Hong Kong is entering a new era. Mega global, regional and national changes are reshaping Hong Kong's relationship with Mainland China, the United States, Western Europe, Northeast Asia, and Belt and Road countries (in Southeast Asia, Central Asia, Middle East and Africa). The economic and social conditions in Hong Kong are being significantly changed as a result.

For Hong Kong to progress and thrive in the new era, it is crucial that Hong Kong can re-strengthen itself as a global education and talent hub for the traditional sectors such as finance, trade, transportation, medical and professional services, and also new sectors such as technology, innovation and sustainability. One possible perspective on our new era is: how can we make our city thrive as “Global Talent-Edu-Hub 2.0@HK”.

Ever since our establishment in the seventies, HKUGA (and together with HKUGA Education Foundation and its two schools since the nineties) have made respectable contributions to Hong Kong in the education and talent development domains. The nominated Exco Members (2024-2026) aspire to leverage on HKUGA's strong foundation to continue to make contributions to our Alma Mater HKU, our city, Mainland China and globally in the new era of “Global Talent-Edu-Hub 2.0 @HK”. At the same time, we shall continue to organize various activities to facilitate the networking and personal/professional development of our members and also to carry out other appropriate social contributions and services.
